

QUAKER SOCCERS CAPTURE TROPHY

Crescents Defeated 2 to 0 by
Germantown C. C. Eleven
at Bay Ridge.

That the Crescent challenge trophy, emblematic of intercity soccer supremacy as between the field club associations of New York and Philadelphia, must go this year to Philadelphia was decided yesterday by the match between the eleven of the Crescent Athletic Club and the Germantown Cricket Club, which resulted in favor of the Quakers by the score of 2 goals to 0. The latter thereby came into possession of the cup, which has been in the custody of the Montclair Athletic Club for two years.

The Crescents were distinctly off form in consequence of lack of practice for the last three months and did not by a good deal play up to their reputation. The Philadelphians, on the other hand, displayed superior speed and endurance and fully earned their important victory.

The first tally came after fifteen minutes of play as the result of a long looping shot by Sharpless, Germantown's right half back, which came as a surprise and completely deceived King in goal. At half time Germantown led by 1-0. Ten minutes after the restart J. Beard dodged around right back Cantwell and drove in a hot shot which King partially cleared. Following up, Beard reached the net on the next try. After the game the visitors were hos-

pitably entertained at the Crescent A. C. country house.

The lineup:

Crescent A. C. (9). Goal.....Barba Cantwell.....Left back.....Boggs Meyer.....Right back.....Morgan Mathews.....Left half.....Sharpless MacLennan.....Centre half.....Coffin Taylor.....Left back.....W. Beard Van der Wolf.....Outside right.....Tatnell Waters.....Inside right.....J. Beard Durant.....Centre.....Cletcher Smith.....Inside left.....Mann MacPherson.....Outside left.....Robertson

Germantown C. C. (11). Goal.....J. D. Schofield. Linemen—R. Swallow and D. Rogers. Goals—Germantown C. C.—Sharpless, J. Beard. Time of halves—45 minutes.

CRICKET SCHEDULE OUT.

Thirty matches comprise the season's schedule announced yesterday by the New York and New Jersey Cricket Association, in which will compete teams representing the Manor Field Cricket Club (champions), Staten Island, Bensonhurst, Columbia Oval and Brooklyn. The Crescent Athletic Club failed to enter the competition, as had been expected. The official schedule follows:

May 21—Columbia Oval vs. Manor Field; May 28—Bensonhurst vs. Columbia Oval; May 30—Staten Island vs. Bensonhurst and Manor Field vs. Columbia Oval; June 4—Columbia Oval vs. Staten Island; June 5—Brooklyn vs. Bensonhurst; June 11—Columbia Oval vs. Brooklyn; June 18—Manor Field vs. Brooklyn; June 25—Bensonhurst vs. Staten Island; June 26—Columbia Oval vs. Brooklyn; July 2—Columbia Oval vs. Bensonhurst; July 4—Staten Island vs. Brooklyn; July 9—Staten Island vs. Columbia Oval and Bensonhurst vs. Brooklyn; July 16—Brooklyn vs. Staten Island; July 23—Staten Island vs. Manor Field and Bensonhurst vs. Columbia Oval; July 29—Brooklyn vs. Manor Field; August 6—Manor Field vs. Staten Island; Bensonhurst vs. Staten Island; August 15—Manor Field vs. Staten Island; August 18—Brooklyn vs. Manor Field; August 20—Staten Island vs. Brooklyn; August 27—Manor Field vs. Bensonhurst.

CLYMER GIVEN FULL CHARGE.

TOLEDO, Ohio, April 2.—William J. Clymer has been given full charge of the Toledo baseball club of the American Association, according to word received here from Roger Bresnahan, the club owner, who is with the team in the training camp at Augusta, Ga. Clymer and Bresnahan have been unable to agree over certain training methods and after a conference, in which Clymer is said to have threatened to give up the managerial task, Bresnahan told the ball players that Clymer is boss.

NEWARK STADIUM NEAR COMPLETION.

The Newark Stadium Company cycle racing track, at Frelinghuysen avenue and Dayton street, will be ready for the opening meet on Sunday, April 17. The track, when completed, will be modern in every respect, and the covered stands which will circle the six lap oval will have a seating capacity of 20,000. John Staehle, who won the amateur title in 1919 and last year cast his lot with the professionals, will enter the championship fight at the new course.

PAIGE

THE MOST BEAUTIFUL CAR IN AMERICA

ANNOUNCING The PAIGE NATIONAL DEMONSTRATION WEEK

For one week—commencing Monday, April 4th.—our Dealers in every section of the nation will conduct a special series of demonstrations with the complete line of Paige cars.

Our "Daytona 6-66" model now holds the world's stock car record for speed. It will be the purpose of Demonstration Week to prove that any Paige car—in the hands of an unprofessional driver—is indeed Master of the Highway.

No other stock car has ever equalled our own speed record of 102.8 miles per hour. No other car, we are confident, can defeat a Paige in the milder tests of general demonstration work.

By proving itself the fastest car, the Paige 6-66 has revealed qualities of endurance and strength that are beyond dispute. World's championship form is a guarantee of all 'round efficiency—the best guarantee that the sporting world affords.

But these are facts that we want you to establish for yourself, and Demonstration Week offers an unrivaled opportunity. You have but to get in

touch with our Dealer and he will book you for a ride that will prove finally convincing.

Then, with an actual record of the tests, you will be in position to compare the Paige 6-66 with any other motor car—at any price—on the American market.

You will also be able to determine whether the New Series "Glenbrook Six-44" is or is not the greatest dollar for dollar value in the light six field.

Surely no man could ask for a fairer or more sportsmanlike proposition.

Whether you contemplate buying a motor car or not, we very cordially invite you to ride with Paige during the coming week. It will prove a revelation, we believe—and a liberal education in strictly modern engineering.

ANNOUNCING The New Series Moon

THE tremendous success of Moon cars is the result of clear, accurate vision. The Moon stands supreme in its class because its makers foresaw that only *exceptional quality* could win the good will of those who had been accustomed to the comforts and niceties of big, costly makes.

So they set out to produce a car that would give absolute assurance of *Thoroughbred Quality* in *every detail*—one that would be sturdy, light, compact and *perfectly finished throughout*—a car, moreover, that would combine the engineering skill of the world in every proven unit.

To the making of this car they brought a wealth of materials, manufacturing equipment and experience. Price was secondary—the aim was to include every principle of good engineering and coach work acquired during fifteen years of motor car building.

First came the "Victory" model of 1918, perfected during the War Period. A year later the Model Six-46 brought further refinements, and in 1920 the Six-48 was everywhere regarded as the most remarkable car of the year.

To-day the New Series Moon is the ultimate result of these many

years of concentrated effort. It is the triumph of a factory which kept its faith in the singleness of Moon ideals. Its unquestioned leadership is due to Moon superiority *unit by unit* over anything approaching it in price. There isn't a single element of chance in its purchase because *every feature*, both of engineering and coach work, is of *proven quality*.

Check up for yourself these proven features, one by one. The result will establish your supreme confidence in this New Series Moon and make its ownership a lasting pleasure.

Combined Engineering Skill of the World

1. Motor—Continental—Red Seal.
2. Carburetor—Rayfield.
3. Starter and Ignition—Delco.
4. Battery—Exide.
5. Clutch—Borg & Beck.
6. Transmission—Brown-Lipe.
7. Universal Joints—Spicer.
8. Axles—Timken.
9. Springs—Stanpar.
10. Radiator—Feddars—Victory Silver.
11. Steering Gear—Warner.
12. Frame—Parish & Bingham.

1921 Value— Based on 1921 Costs

1921 material costs are lower. 1921 car prices should also be lower.

And they are lower in the Auburn Beauty-SIX—\$200 lower in fact.

YOU KNOW that the Auburn Automobile Company readjusted their prices on all models on the basis of *present costs* of materials.

YOU KNOW that the twenty-one years of continuous manufacture guarantees in the Auburn Beauty-SIX a product of time-tested experience—a car of character and worth.

YOU KNOW that you can depend upon an Auburn Beauty-SIX to serve you consistently and well. You have confidence in its power—its stability—its performance.

KNOWING ALL THIS—And realizing the *SAVING* to you in buying a car which has already been reduced substantially in price, your own judgment, we believe, will dictate an Auburn Beauty-SIX.
